

# Material Specification

## Aluminium Posts

Manufactured for aluminium box section with thermo-lacquered paint finish.

**Covered by a 20 year guarantee for aluminium box section and 10 years for paint finish.**

## Timber Panels

Constructed from high quality European Redwood. Timbers are pressure treated in accordance with EN 351-1.

**Covered by 10 a year guarantee.**

## Screws

All screws are stainless steel (grade A2) and are concealed once the equipment is assembled.

## Caps

All standard nuts are concealed by custom made, tamper resistant, tough plastic caps.

## Nets

constructed from 5mm diameter steel cored rope with tamper resistant plastic connectors.

## Guarantees

All guarantees cover failure arising from material, manufacturing or installation defects. The stated guarantee periods commence at the delivery date of the equipment. Normal wear and tear and damage caused by vandalism are not covered by our guarantees. Guarantees will only apply when installation and maintenance has been carried out in accordance with our instructions and schedules.

In accordance with our policy of continuous product development we reserve the right to make modification in design and specification.
